UNIQUELY CRAFTED SECURITY DOORS

Security Door Brochure

THE COLONIAL DIFFERENCE

For decades, Colonial Castings has been perfecting the ultimate talking-point of prestigious, modern homes. Now, it's time to start welcoming your guests through a front entrance like no other; greet them with a luxurious, designer door that radiates the spirit of your house and the personality of the ones who make it a home.

And, you won't have to sacrifice form for function. We've made sure that durability and strength are as prominent in the design as sophistication and beauty.

What's the Colonial difference? It's the joy we find in creating a piece of urban artwork that welcomes you home each and every day. It's the unparalleled innovation in technology and design. It's the way our family cares for yours.

That's the Colonial difference.

DESIGN & AESTHETICS

Dramatic, elegant or modern, traditional or something entirely new; no matter what style of home you've designed, the Colonial Castings' collection of stunning security doors will seamlessly integrate into and enhance your front entrance.

Ahead of its time in decadent home luxury, Colonial doors are so much more than a traditional security device. Stunningly adorned with unique floating panels, these prestigious doors will transform the face of your home into something truly special; an inviting frontage with soul and distinct character.

The panel designs include a vast array of mould cast aluminium patterns, styles, powder coated colours and stunning glass elements; all of which are simply the foundation of an artwork ready to be created by you.

TECHNOLOGY & INNOVATION

An absolute masterpiece in design technology, Colonial Castings world-class security screen doors are built with an exclusive construction technique. You can relax knowing your home is safeguarded by state-of-the-art security innovation, without having to compromise on aesthetics or personal taste.

Intricately detailed, perfectly fashioned and immaculately presented, Colonial doors are vital for ensuring unsurpassed safety and quality for your most expensive asset, and the precious people in it.

Peace of mind can now look as beautiful as the home you live in.

QUALITY STANDARD TESTING

Our Colonial Castings Security Doors have been tested to the following standards when they are assembled with genuine Colonial Castings components and our exacting specifications.

10 YEAR
WARRANTY

DYNAMIC IMPACT

Intruders relying on brute force and severe impact to invade your home will find themselves defeated by the patented two-part strengthening system of our superior Colonial doors. The robust aluminium mesh screen and aluminium panel work together to create a barrier that absorbs and spreads the shock of severe force, keeping you and your home secure.

WARRANTY

The design of this door has come about through years of testing, developing and refining a product that is designed specifically for the varied Australian conditions and with the safety of your home as our top priority, with this we offer a 10 year warranty and have tested the doors to meet all Australian security standards.

PROBE, KNIFE & SHEAR

Sharp implements and slicing tools are no match for the incredible strength of Colonial Castings premium mesh. And while the mesh has been designed to resist shearing, impact and slicing, it won't hamper air flow, giving your home both vital protection and fresh breezes it deserves.

PULLING & JEMMY

There's more than just aesthetic appeal in the powder coated mesh and fused decorative panel elements. The combination of structural strength along with a concealed snap aluminium beading creates a single impenetrable barrier which protects the frame from jemmying, and thwarts pulling and tugging attempts.
